

Trim

This is the trim edge. Nothing beyond the document edge will be printed.

**Finish Size**

This guide represents the edge of the finished flag and shows where the trimmed flag will fold to make the hems.

**Live Area**

All text and graphics that you do not want folded into the hem or sewn through should be kept inside this guide.

Please convert ALL type elements to outlines using the “Create Outlines” option in the TYPE menu.

Our digital printers use quasi-CMYK inks optimized for banner printing. If you specify PANTONE formula spot colors please understand that some of these colors cannot be reproduced. We use sophisticated color management software that will try to get as close as possible within the color gamut of our printers, but the color will not match the Pantone formula guide book. If color is critical to your job, you will need to purchase a sample print of your artwork for color approval. Please contact your customer service representative for more details.
